WILLIARD LIMBACH WILL TRANSITION INTO LIMBACH FACILITY SERVICES IN 2009

PITTSBURGH, PA (January 5, 2009) - Limbach Facility Services LLC has announced that its location in Philadelphia, Williard Limbach, will now operate as Limbach Company LLC. The name change is part of a re-branding initiative to unify Limbach's approach to the market. With over a century of operating experience, the Limbach name occupies a position of prominence amongst the nation's top mechanical contractors. As the 7th largest mechanical construction and service firm in the US, Limbach brings a recognized reputation and a network of strong relationships developed through consistently performing superior work.

While Williard was established over 63 years ago, in 1986 it became sister subsidiaries with Limbach under the French company, Anjou International (later renamed Vivendi), and began operating as Williard Limbach. In December of 2002, Limbach's management partnered with the investment firm FdG Associates to gain independence from their parent company and formed Limbach Facility Services LLC. At that time, Limbach acquired Williard and continued to serve the Philadelphia / New Jersey market under the name Williard Limbach.

Willard Limbach has worked on numerous high-profile projects including the Philadelphia Art Museum, the Kimmel Performing Arts Center, Terminal One at the Philadelphia International Airport, and the new stadium for the Philadelphia Eagle's, Lincoln Financial Field. The Philadelphia branch of Limbach will continue to provide

comprehensive building services consisting of mechanical construction, full HVAC service and maintenance, water treatment, energy audits, as well as engineering and design build services. The intention of assimilating the branch under the Limbach identity is to provide the resources of a national presence, while remaining committed on a local level.

Since 1901, Limbach has provided mechanical and sheet metal services to clients in Pittsburgh, PA. Today, Limbach Facility Services has grown to a \$350 million national mechanical contractor, consistently ranked in the Top 15 of ENR's Top Specialty Contractors since 1964. With headquarters in Pittsburgh, Limbach maintains eleven (11) established branch locations throughout the US, including Ann Arbor, MI; Boston, MA; Columbus, OH; Detroit, MI; Los Angeles, CA; Palm Springs, CA; Philadelphia, PA; Pittsburgh, PA; Orlando, FL; Tampa, FL, Washington, DC.

Limbach's commitment is to be the first choice mechanical construction and service firm in the markets it serves, consistently exceeding the expectations of its shareholders, customers, investors, employees, and partners.

Limbach strives to bring its customers a wealth of industry experience, an established local presence, cost competitiveness, a strong service record, and innovative building solutions in energy efficiency and technology. Limbach's construction heritage delivers an expertise that only experience can provide. An inexorable drive for excellence is attributed to Limbach's status as the nation's leading and fastest growing, privately held mechanical construction and service firm.
